CERTIFIED IRRIGATION PROFESSIONAL (CIP)		Member	Non-Member
Application for Certification		\$370	\$560
Renew CIP or CMI (biennially)		\$310	\$470

## RENEWING YOUR CERTIFICATION

By requiring a regular re-certification process, Irrigation Australia is ensuring that certified personnel remain active in the industry and are keeping their knowledge and skills up-to-date. Certified people can demonstrate this by earning the required Continuous Professional Development (CPD) points in the required timeframe to maintain their active status. Those failing to earn the required CPD points will be considered non-active.

There are two (2) different, though similar, sets of CPD guidelines:

1. Certified Irrigation Designers are assessed annually (1 year)
2. All remaining certifications are assessed biennially (2 years)
  - Irrigation Australia conducts random audits of 5% of all CPD returns each year
  - 10 points are needed each year no matter how many CIP credentials you have
  - Points awarded above 10 (to a maximum of 10 points) can be accrued for the next year.
